

Americrete Inc

MANUFACTURER OF DECORATIVE OVERLAYS & SEALERS

Americrete Stain Enhancer A-1050

Product Description

Stain Enhancer comes in 6 different colors. It will enhance the color of the stain and will have various hues at different angles. Stain Enhancer is a tough, durable, high gloss, amber resistant product designed to be used as a finish over Americrete smooth finishes. Stain Enhancer A-1050 is a water base sealer. Americrete Stain Enhancer gives Americrete products a protective coating and can be used as your first coat of sealer. It gives the floor the appearance of changing colors as you look at it from different angles.

Primary Uses

Interior and exterior surfaces, high gloss sealer that is used on sealed smooth finishes. Stain Enhancer is excellent for wood floors and cabinets. Stain Enhancer is non-ambering, non-yellowing, tough, durable and versatile. Apply one of the following sealers over the Stain Enhancer to seal the surface: A-1400, A-1450, A-1350, A-4200, A-4201 or A-5500.

Coverage Rate

Stain Enhancer will cover approximately 200 to 300 square feet per gallon, depending upon the surface applied to and application procedure followed.

Limitations

Not recommended for application below 28 degrees F. Do not apply on wet or damp surfaces. Do not apply thick coats or allow to puddle. When applying this product, the applicator (and everyone in the immediate area) must wear protective clothing such as a filtered mask, gloves, boots, long sleeve shirt, long pants as well as proper eye protection.

Typical Application

Use on interior and/or exterior stained, smooth surfaces.
